Here are ten reasons to learn English - or any language really. We have chosen these ten reasons because they express a wide range not only of learning goals, but also of personal goals. We should rephras this: learning English can be fun. It's not much fun for a lot of students. But we think it's just a problem with how you learn English. Take the time to have fun learning English, listening to music, watching a movie, calling yourself games in English. There are so many ways to learn English while having fun. There is no excuse for not enjoying yourself, even if you have to learn grammar. This is obvious to everyone who lives in our modern world. Employers want workers who speak English. It may not be fair, but it is reality. Learning English to do a test, such as IELTS or TOEIC, gives you qualifications that others may not have, and it can help you get the job you need. You're on the Internet learning English. We all know that the world needs more love and understanding. What better way to improve the world than to communicate with them in English (or another language) ? other cultures?! We believe we've all grown up to see the world one way. It's a good thing, but at some point we're going to have to broaden our horizons. Learning English can help you understand the world through a different language. Understanding the world through another language will help you look at the world from a different perspective. In other words, learning English will help open your mind. The ability to communicate in English can help you reach out and discover new information. This new information could help save someone's life in your family. It helps you help other people in your family who don't speak English. Imagine yourself on a trip and you are responsible for communicating with others in English. Your family is very proud. Scientific research says that using your mind to learn something can help keep your memory intact. Alzheimer's disease - and other diseases that deal with brain functions - is not nearly as powerful as you have kept your brain flexible by learning English. Yes, American and British cultures are strange at times. Speaking English certainly gives you an insight into why these cultures are so bad! I just think you understand English cultures, but they probably don't understand you because they don't speak the language. It's a real advantage in so many ways. English is obsessed with the verb era. In fact, there are twelve eras in English. We have noticed that it is not so many other languages. You can be sure that when you learn English, you will get a sharp feeling when something happens thanks to the use of English language expressions. It's likely that someone speaks English wherever you are. Imagine you're on an abandoned island with people all over the world. What language do you speak? Probably in English! Ok, ok, that's the obvious point we've already made. More people speak Chinese, more people have Spanish in their own language, but realistically, English is the language of choice around the world today. Improve your English skills in English grammar.
